SATURDAY MORNING, SEPTEMBER 2, 1916.

Liberty Under Law—Equal Rights—True Industrial Freedom
PRICE 2½ CENTS (Delivered to Subscribers at \$1.00 per Month in Advance)

"I QUIT ON ACCOUNT OF MY HEALTH"—SEBASTIAN. Congress Yields to Unions; Will be no Strike; Embargoes Off.

PREVENTION OF STRIKE NOW APPEARS ASSURED.

Both Houses of Congress Hasten Action on Adamson Bill, Which Will Probably be Signed by the President Tonight—Brotherhood Men Expected to Send Cancellation of Walk-out Order.

WASHINGTON, Sept. 1.—(By A. P. Night Wire.)—Prevention of the threatened railroad strike through an act of Congress seemed assured tonight, after the House, by an overwhelming vote, had passed the Adamson eight-hour day law and the Senate had agreed to take a final vote on the measure not later than 6 o'clock tomorrow evening.

Although it is possible that Senate amendments may make conference necessary, it is generally believed on both sides of the Capitol that when the text comes the House bill as it stands will be accepted and rushed to Shadow Lawn, N. J., for President Wilson's signature. And while no formal announcements were forthcoming from the employees' brotherhood heads tonight, it is authoritatively stated that this will result in immediate dispatch of code messages calling off the general strike ordered for Monday morning.

The Adamson bill, as passed in the House by a vote of 225 to 54, with minor amendments, is the same measure which the brotherhood leaders officially declared yesterday would constitute a "satisfactory settlement" and prevent the strike. The amendments, added to conform to a draft framed by the Senate Interstate Commerce Committee, would be effective December 1, 1916, and exempt railroads less than 100 miles long and electric and interurban lines.

Briefly, it provides: That eight hours shall be deemed a day's work and the standard for reckoning compensation of railroad employees shall be based on that basis.

LOS ANGELES GIRL TO HELP PRISONER.

SAN FRANCISCO, Sept. 1.—Edwin von Walden, the son of a Cincinnati physician, who robbed a bank here Wednesday of \$3000 and was captured in Golden Gate park after an exciting automobile chase, received a telegram from his mother today asking for details of the robbery and assuring him that she would stand by him.

Another friend of the young bandit appeared today in Los Angeles when a Miss Helen Allen who said she was von Walden's fiancée gave a Los Angeles attorney \$200 and asked him to use it in a fight to save the boy from the penitentiary.

Von Walden said he knew the girl but would not need her aid. He denied they were engaged.

STRIKE DEVELOPMENT. MAY HALT RETURN OF BORDER TROOPS.

HOPE FOR ORGANIZATION OF PROVISIONAL DIVISIONS.

One Regiment of Illinois Guardsmen on Way Home, While Third Missouri Infantry Sets Out from Laredo—Plans for Dispatching Other Units Going Ahead.

ST. ANTONIO (Tex.) Sept. 1.—Hope, based on the day's developments in the strike situation, that there might be no strike and that the sending northward of guardsmen would cease while most of the recalled troops still were on the border was expressed at southern department headquarters tonight. Military men said that the organization of the army into provisional divisions would be handicapped by the loss of 15,000 men recalled by the War Department, but that the work quickly could be resumed if the northward movement ends.

Midnight one regiment of the First Illinois Brigade, the First, with regimental headquarters and brigade headquarters under command of Gen. Jack Foster, left San Antonio for its State mobilization camp and the Third Missouri Infantry set out from Laredo. Also the quartermaster's department went ahead with plans for dispatching from the border the other regiments ordered north.

Gen. Funston announced that he had ordered the entire American National Guard to concentrate at Fort Huachuca, west of El Paso, Guard, constituting much less than a regiment, has been split up and stationed at the Rio Grande and other points, doing guard duty. It is being concentrated so that it can gain adequate practice.

Homestead.

OPEN FOR ENTRY.

Large Tract of Land Is Excluded by President's Order from Angeles Forest and May be Taken Up—Same Said to be Agricultural.

WASHINGTON, Sept. 1.—On recommendation of Secretaries Lane and Houston, President Wilson has signed a proclamation excluding about 97,960 acres from the Angeles National Forest, California, of which 56,000 acres will be open to settlement in advance of entry under the homestead laws from October 25 until including November 21, and thereafter under any public land law applicable.

The excluded lands consist of some scattered tracts and a strip from two to six miles wide and twenty-four miles long on the eastern border of the national forest in Southern California, in Los Angeles, Riverside and San Bernardino counties. It is reported that some of the lands have agricultural value.

Later Dispatches With fresh news marked "30"

BIG EVENTS IN GREECE HINTED AT IN LONDON.

LONDON, Sept. 1.—After two days of telegraphic silence with Athens, during which sensational rumors of a revolution have gained currency, but without confirmation, comes the startling news of the arrival of an Entente allied fleet with transports at Piraeus, and that the general Greek elections likely will be postponed for a fortnight.

The brevity of the dispatches seems to indicate that something unusual is happening and developments are awaited with the greatest curiosity here.

From fragmentary dispatches reaching London it is deduced that changes of decisive character have taken place in Athens and that the Greek de facto government has decided to abandon neutrality and align itself on the side of Entente.

Others take a more conservative view. The Times attaches small importance to Wednesday's revolutionary movement at Saloniki, declaring this is overshadowed by the news of the appearance of Entente allied ships off Piraeus.

"This must be taken to indicate," it says, "that the allies are weary of the equivocations, and are resolved to battle the intrigues of their enemies."

The Chronicle discussed what it terms the great difficulties former Premier Venizelos must encounter in an endeavor to guide Greece. It says:

"The Greek army is anything but ready for action; firstly because it has just been demobilized, and secondly, because the personnel of its higher command and a portion of its officers' corps are in the melting pot, having been heretofore led by staffs largely composed of pro-German officers. The whole army now is in a pretty serious state of demoralization. The case of the nation is similar."

The Chronicle dismisses the rumors of King Constantine's abdication and similar reports of political changes in Athens as "quite unfounded."

PREPARED IN SAN FRANCISCO.

SAN FRANCISCO, Sept. 1.—Although announcement that the Erie railroad had notified its general agent in this city that the road had cancelled all embargoes on perishables and live stock added strength to the hope that a general strike on the country's railroads would be averted, strike preparations continued here just as if a break were inevitable.

The local members of the four brotherhoods executive committee arrived here today from Washington.

Produce merchants here, whose sources of supply can be reached by water, made arrangements today, it was announced, to charter a large fleet of power launches which will be used for towing produce-laden barges to this market.

VILLA IN ACTION AGAIN.

EL PASO (Tex.) Sept. 1.—Francisco Villa, with a force recruited as a result of his recent victories in the vicinity of Satevo, to about 1100 men, attacked Gen. Elizondo in the vicinity of Santa Ysabel and forced the Carranza leader who had about 600 troops, to fall back toward Chihuahua City, according to private dispatches here tonight. The Carranza losses were estimated at about thirty, while the Villa losses were said to have been less. After the engagement Villa seized a freight train on the Mexico Northwestern which he had his men converting into a troop train.

Part of his force, according to the dispatches, was sent to the North from the line of the railroad, apparently on a scouting expedition.

ELECTIONS IN DENMARK.

LONDON, Sept. 1.—Premier Zahle of Denmark, has submitted to the Folkething, the Danish Lower House, a proposal to dissolve the chamber October 5, says a Reuter dispatch from Copenhagen. The proposal also calls for elections for the Folkething and the Landething, the Upper House, in October and November.

The general election in Denmark, the result of political differences over the proposed sale of the Danish West Indies to the United States. The Folkething approved the sale but the Landething, most of whose members oppose the government, voted to settle the question by elections but the sale could not be postponed until after the war.

SUTHERLAND HEADS BAR ASSOCIATION.

CHICAGO, Sept. 1.—Senator George Sutherland of Utah was elected president of the American Bar Association for 1917 today, defeating by four votes Walter George Smith of Philadelphia. The vote was twenty-six for Senator Sutherland and twenty-two for Mr. Smith. Mr. Smith was put on the Executive Committee.

George Whitehead of Baltimore, Md., was re-elected secretary, and Frederick E. Wadhams of Albany, N. Y., treasurer of the association for fourteen years, also was re-elected.

GREEK ELECTIONS TO BE POSTPONED.

SACRAMENTO, Sept. 1.—The greater part of government land open to homesteaders in the western sides of Shasta and Tehama counties, as well as a portion of the government land in Siskiyou county, has been declared by the United States Geological Survey to be subject to be enlarged, or 320 acre, homestead applications, according to announcement by Register H. P. Andrews of the Sacramento Land Office, today.

Instructions from the Land Office in Washington permit Register Andrews and Receiver Butler to allow these homesteads from and after October 10.

MAYOR TENDERS RESIGNATION; COUNCIL TO ACCEPT IT TODAY.

City's Legislative Body to Meet in Emergency Session this Morning and Consider the Appointment of a Successor—Several Possibilities.

CHARLES E. SEBASTIAN has written and signed his resignation as Mayor of Los Angeles. This resignation will be presented to the City Council at a special session called for 8:30 o'clock this morning. It will be accepted.

The Mayor says that he is resigning because of ill health. It is known, however, that it follows the expressed desires of the Merchants' and Manufacturers' Association, as set forth on at least one conference of its representatives with the Mayor.

The City Council, after accepting the Mayor's resignation this morning, will take preliminary steps toward the naming of his successor to act, probably, until the next municipal election in June, 1917.

At least six or seven names of men who are considered eligible material for the Mayoralty have been discussed by members of the Council. It was stated by one member of that body last night, however, that not one of the men discussed would receive a majority vote at tomorrow's session, if matters should progress far enough to reach a ballot, and that there was little prospect of any further action at this special session than that of accepting the Mayor's resignation.

The members of the Council had planned a trip, to start at 8 o'clock this morning, to the municipal recreation and vacation camp in Seeley Flat, fourteen miles back of San Bernardino. This will be postponed because of the serious business on hand.

THE LAW REGARDING SUCCESSOR.

City Attorney Stephens said last night that he has asked the Council to meet in special session this morning, so that the resignation of the Mayor might be acted upon.

Discussing the situation, he said:

"There is no provision of law creating a Mayor for the interim between the resignation of the incumbent and the appointment of a new executive. As a result, as soon as this resignation is accepted, the city of Los Angeles will have no one who can exercise the authority of Mayor until a new executive is appointed."

"The law states that during the absence from the city of the Mayor, the president of the City Council may execute the duties of the office. However, this does not apply when the Mayor resigns. Nevertheless, the business of the city may be run comfortably for a short period without an executive head."

The Mayor stated last night that his resignation is unequivocal, that he has asked the Council to meet in special session this morning, so that the resignation of the Mayor might be acted upon.

Members of the Council stated last night that the resignation will be promptly accepted. They indicated that no head of the city government will be appointed for a few days, so that the available material may be carefully considered. There is no disposition to rush through a new appointment.

Because of the discussion that has prevailed for some time past regarding the possibility of the Mayor taking the step he has now taken, it was natural that there should be more or less discussion of the matter in the City Council. It was there that the Mayor's resignation was first discussed, but no conference has been held on the subject, and these discussions have been only desultory.

POSSIBLE MAYORS.

Among the names that have thus been discussed are those of Fred L. Baker, head of the Baker Iron Works; Frederick J. Whiffen, who was Mayor Sebastian's opponent at the last election; Robert Allen, a real estate appraiser, who has been more or less in touch with municipal governmental affairs; Owen McAlister, former Mayor and present member of the Board of Public Works; L. P. Woodman, president of the Harbor Commission; George Dunlop, chairman of the Amusement Commission; John S. Mitchell, president of the Chamber of Commerce; T. E. Gibson, a widely-known attorney of this city; and Loren Handley, president of the Board of Public Works.

One of the members of the Council last night stated that his opinion it would be wise to elect some person not now directly connected with the municipal government.

TAKES FIVE VOTES.

It requires five votes to secure an election. Members of the Council stated last night that they would want ample time to canvass the situation, and that they did not believe there is any possibility of five votes being centered on any one man should the matter be pressed to an issue today.

President Betkowski of the Council said last night:

"I do not believe that any definite action concerning the election of a new Mayor will be taken for a week. If the resignation is accepted, I suppose I will act as Mayor until the appointment of a successor. I know nothing about the resignation being handed in today. I do not believe there will be any immediate action toward electing a successor. Who is elected will, in my opinion, be absolutely straight regarding the municipal power question."

Earl Rogers, who has been the legal and political adviser of Mayor Sebastian, is confined to his home by illness. Attorney Luther Brown has acted for the Mayor during the past few days. Mr. Rogers last night declared that he knew nothing of anything the Mayor might do would not surprise him, because of the condition of the Mayor through his illness.

THE CITY. Mayor Sebastian wrote out a resignation to be tendered at a special meeting of the Council this morning; it was announced the resignation will be accepted.

A Methodist pastor tendered his resignation after the congregation had been divided by the issue of military drill for boys of the church.

The negro head of a religious circle was jailed on a charge of having stolen the savings of two votaries; other adherents bailed her out.

A deputy constable was arrested on complaint by a woman that he impersonated another officer and "absented" her.

Twenty-five linemen employed by the Pacific Light and Power Corporation went on a strike, but did nothing more than sacrifice good jobs.

The City Attorney declared the proposed ordinance for dancing in cafes, or call a special election.

SOUTHERN CALIFORNIA. A noted manufacturer died in Pasadena.

The submarine launched at Long Beach has been pulled off the sandbar.

A San Diego minister is accused by a girl.

A man was killed in a wreck near Panama.

PACIFIC SLOPE. Strenuous work by civil service employees is said to have carried the primaries for Johnson.

A barber and his wife were burned to death in a San Francisco fire.

Deaths leave border for home.

HINT TO READERS: It is a mistake to jump at the wrong conclusion that all, or even the greater part, of the news items in this paper are of the "hot" type. The news items are all the news of the day.

GREECE JOINS ALLIES THE REPORT IN LONDON.

LONDON, Sept. 1.—Unofficial reports have reached London, which apparently have been much censored, indicating that Greece has abandoned her neutrality and thrown her lot on the side of the Entente allies. Whether Greece has already declared war is problematical, as is the nation of nations to whom she has thrown her lot.

The British Foreign Office announced tonight that it had received official confirmation of the reported Greek revolt at Saloniki. The statement adds, however, that the Foreign Office has heard nothing of the reported abdication of King Constantine.

MONEY TO LOAN—

[illegible]

SATURDAY, SEPTEMBER 2, 1916.—EDITORIAL SECTION.

POPULATION By the Federal Census (1910)—215,155 By the City Directory (1916)—225,000

XXXVTH YEAR.

SHEPHERD AND FLOCK SPLIT ON MILITARISM.

Church Board Upholds Boys' Rifle Drill; Pastor Tenders Resignation.

The church militant or the church pacifist—that is the issue that has split the congregation of the Echo Park Methodist Episcopal Church. Rifles are stored in the church building at No. 2116 Nevada street, the Boys' Brigade, composed of young men in the neighborhood, who had little or no interest in church matters, were drawn into the organization because of the drills. Back of this split are months of differences over this militarism, to which the pastor, Rev. Joseph E. Fischer, of No. 1337 Liberty street, is openly and firmly opposed.

Matters, it became generally known yesterday, reached a crisis at the quarterly conference of the church a few days ago. The annual conference, continuous military drills of this vicinity will be assigned their charges for the ensuing year, to begin the 10th inst. Saturday night there was presented to the assembled church members a resolution endorsing the work Rev. Mr. Fischer has accomplished during the year and asking that he be returned to the Echo Park Church. This resolution, found to be out of the regular order of business, was tabled. Then Mr. Fischer verbally presented his resignation. This, too, it was said, could not be acted on by a quarterly conference, as appointment of ministers to their work and changes in assignments are in the hands of the bishop. So the resignation stands.

STILL THEY DRILL. At the same time the drilling of the boys goes on as before. The lads

MONEY SOLVES THE MYSTERY.

Missing Husband Joins in Asking Probate of Estate He's an Heir To.

The death of his father, E. Edwin Eads and the filing of a petition yesterday by his wife, Mrs. Daisy L. Eads, for letters of administration on the \$7000 estate, led to the clearing up of the alleged mysterious disappearance of John Walter Eads. The latter is in Seattle and through Jessie H. Hartwell, acting as his assignee, joined in the petition, asking that the will be admitted to probate.

John Walter Eads formerly resided with his wife in Portland. In her petition filed August 4, last, she stated she did not know the whereabouts of her husband. The elder Eads died July 24, leaving the entire estate to his son.

OTHER BUSINESS.

President of Federated Improvement Association Resigns Office So He May Devote Time to Duties as Secretary of Democratic Committee.

R. F. Groves, who was elected president of the Federated Improvement Association several months ago, resigned that position at a meeting of the association last night in Burbank Hall. Mr. Groves stated that he was unable to attend to his duties as president of the improvement association because of his activities as secretary of the Democratic Central Committee.

H. S. McCallum, former president of the Federated Improvement Association, was elected to succeed Mr. Groves. A report urging city officials to reduce the operating expenses of their various departments, which was prepared by a committee appointed at a previous meeting of the association, was filed with the secretary.

PREFERS CHICKENS.

Purchaser of Controlling Interest in Turkish Bath House Sues to Obtain a Ranch He Says was Purchased with His Money.

B. L. Ihrig invested his money in a Turkish bath-house; found, he says, it was not as represented, as to its capacity to earn \$500 profit a month, and may find himself owner of a chicken ranch, bought, as he says, with the money he put up for the Turkish bath-house stock.

Ihrig filed suit against L. F. and Annie Shaug yesterday, alleging that he bought 1248 shares of the stock of the Pacific Turkish Bath, took the management, and now is running up and tack with the expenses. In short, he has denied himself a salary because the crowd of patrons he saw before he bought did not materialize after he took possession. He paid \$3500 for his interest, he avers.

It also stated in the complaint that Mr. Shaug invested Mr. Ihrig's money in a chicken ranch. He wants the court to rescind the sale of the stock and to declare the chicken ranch held in trust for himself.

BACCY ROUTS HYMEN.

Beaumont Wife Seeks Divorce, Claiming Husband Smoked in Bed at Unseasonable Hours and Represented Himself as a Single Man.

Emil H. Senten of Beaumont is an inveterate smoker. The pipe was strong and he used strong tobacco, but his wife might have become accustomed to the odor if the red-hot ember had not been in the casings fallen on tablecloths, clothing and the sheets of the bed, setting them ablaze.

But Mr. Senten also had other eccentricities, according to his wife, Henrietta E. Senten, who filed suit for divorce yesterday through Attorney Clyde E. Cate. She claims he would arouse from sleep, seek his pipe and smoke and read the newspaper, evidently to woo the coyness of sleep. The acrid smell of the pipe and the tobacco, not to speak of the constant rattling of the newspaper, sent Mrs. Senten flying away from her pillow, Mrs. Senten claims.

But this was not all, for Mrs. Senten alleges he kept the light burning during the night; that he represented himself as a single man to other women and his own ideas of law and order. Furthermore, she claims she worked in the fields while he stayed home and smoked.

Because of his alleged cruelty Mrs. Senten fled from her husband March 21, last. August 11 it is alleged, he came to Los Angeles, where she was living, and tried to kiss her. She repulsed him, whereupon it is said he attempted to take their 7-year-old child from her.

BUSINESS AND PLEASURE.

Mr. and Mrs. Paul Healy are here from Chicago on a combination business and pleasure trip. Mr. Healy is a manufacturer of musical instruments and comes to California frequently, while Mrs. Healy, who has many friends here, usually makes the western journey with her husband.

CHARGE "QUEEN ELLA" IS THIEF.

Jail Famous Black Priestess on Sordid Complaint.

White Men and Women Kiss and Hug Her in Cell.

Two Followers Say that She Stole Their Savings.

The City Jail was made the scene of a weird, impromptu religious ceremonial last night when white men and women, followers of the black "Queen Ella" of fanatical fame, gathered about their leader in her cell, where she had been lodged on a warrant charging her with the theft of \$500 from an aged German couple. The followers absolutely refused to leave their priestess except to telephone other members of the cult to raise the necessary \$5000 bail. When this was forthcoming after the "queen" had spent two hours in jail, the little groups of religious adherents left the premises en masse, escorting their leader back to her residence at No. 362 East Thirty-third street.

"Queen Ella," sometimes known as "Saint Ella," was booked at the jail as plain Mrs. Ella Smith. This was not her first introduction to the local authorities, as some months ago she was placed in the psychopathic ward of the County Hospital for observation because she had repeatedly declared she was to be blessed by the birth of a white child who was to lead the world from sin.

SORDID CHARGE.

The charge that brought her again before the public gaze yesterday was too much of the flesh to demand a detailed explanation from the priestess. For some time she has been gathering a following to her cult at her little temple in the rear of the residence on East Thirty-third street. Apparently, the black queen preferred to save white people, for her members are almost entirely confined to the Caucasian race.

It appears, from details gleaned from members, that the principal theory of this strange religion is that the "queen," or "saint," had been so blessed by Heaven that by the "laying on of hands" she could cure all mental and physical ills.

Among the members attracted by "Queen Ella" appeared a few weeks ago Mr. and Mrs. Otto Kubish, who live a few doors from the temple, at No. 323 East Thirty-third street. Mrs. Kubish is an expert hatmaker, having learned to make hats in a famous Berlin establishment.

The couple, well advanced in years, lived quietly and saved a little money. In all, their savings amounted to about \$500, which they kept in bills of large denomination in an old trunk in their home. This was done because both man and wife feared bank failures, and decided to have the money in a safe place. However, one could get it should either one die suddenly. It was also their intention, that when the sum amounted to \$1000 and peace had come, to take their long-deferred trip to their former home in Berlin.

Then they met "Queen Ella," and became interested in her cult. As they became better acquainted, they became confidential. One day, they told the police, they invited "Queen Ella" to their home. Here they discussed about life and death, and the "queen" is alleged to have told them that there was no cash in Heaven, one should not hoard money, and that the only way to get rich was to give. They opened their trunk and showed the "queen" their savings. She advised them not to keep it. However, they refused to part with their trunk, and decided to go on as before, for a short period at any rate.

They opened the trunk for the first time since the "queen's" visit and found the money gone. "Queen" was the only other human being to know of the existence of the money, Mr. and Mrs. Kubish swore out a warrant for the arrest of the priestess. This warrant was served yesterday evening by Detective Charles Jones.

WEIRD SCENES.

No sooner had the "queen" been lodged safely behind the bars than her followers commenced to appear, demanding they be permitted to visit in jail. The priestess, however, first to appear was Maude Hanly, a convert to the faith. Miss Hanly told the police she would like to see the "queen" and that she was permitted to see "Queen Ella," and greeted the black leader with a kiss full upon the lips.

Then followed Margaret Hennessy, Mrs. Nancy Oakden, her husband Thomas Oakden, and several other members of the cult. Mr. and Mrs. Oakden, who recently sold a fine house on the west side of the city to move to No. 1140 East Thirty-third street, where they might be near the queen, are well to do. It was through their efforts the necessary bail money was produced, as each follower appeared, and all prayed together.

"Queen Ella," assuming a righteous air, would not argue the matter of the money. "I am a good woman," she said, "I am not a thief, but good in this world. How could I be guilty?"

"Queen Ella" was dismissed from her recent visit to the County Jail for lack of evidence to uphold the complaint that she was mentally deranged. The charge was made at the City Jail yesterday when she was completely in white silk, with a white hat and from half a dozen white cigarettes stood out.

SHOWS EAGERNESS.

Dominic Esposito, the Italian fruit vendor of San Francisco, who is preliminary hearing yesterday before United States Commissioner Hammon on the charge of having counterfeit coin in his possession, and was held in \$1000 bond for his appearance later, usually makes the western journey with his husband.

Figuring in a Remarkable Tangle.

In the case against Burton E. Gear, Held in the County Jail pending the issuance of a complaint, which Deputy District Attorney Stafford says will be forthcoming today, charging him with impersonation and with the abduction of Mrs. Stephens. Mr. Knox is or was Mrs. Stephens' fiancé, she says. Mrs. Marlin is a sister of Mr. Knox.

IN SYMPATHY.

A result of the discharge of seven union linemen in the employ of the Pacific Light and Power Corporation at San Bernardino, a week ago, twenty-five men walked out yesterday at various points along the corporation's lines in San Bernardino, Riverside and Los Angeles counties.

The men struck in sympathy with those who lost their jobs because of their tendency to stir up trouble among the corporation's employees, the majority of whom are non-union men. The trouble started when fifteen linemen in the employ of the Southern Sierras Power Company struck for shorter hours and more pay. Through the influence of their union they undertook to organize a general strike on all the lines of the Pacific Light and Power Corporation and the Southern California Edison Company, but as only a very small percentage of the men are union men, the effort has proven a flat failure.

Officials of the Southern Sierras Power Company state that their work is proceeding as usual and that they have all the men available for whom they have work.

"The strike will not affect the operations of the Pacific Light and Power Corporation in the slightest," said J. L. Hoke, general superintendent, last night. "We have in all about sixty-five linemen engaged in line work at the present time, and the strike on the part of the twenty-five will in nowise inconvenience us. In fact, I doubt if we shall attempt to employ men to take their places, as at this season of the year things are very quiet. I do not understand why these men quit good jobs. We could have dispensed with their services long ago, but we make it a practice to carry our men through slack times. Their quitting simply cuts down our pay roll and does the men no good."

Asked if the linemen on the Southern California Edison Company would go out on a sympathetic strike, R. H. Ballard, secretary and treasurer of the union, stated that his company had no fears of such a move, as most of the men were non-union.

H. G. Green, district organizer for the linemen, when seen at San Bernardino last night, claimed that 400 linemen and patrolmen had struck in sympathy with the striking employees of the Southern Sierras Power Company. He further asserted that both union and non-union men went out together and that the districts affected would include Los Angeles, San Bernardino, Ventura, Kern and Kings counties.

MUST DECIDE THE DANCE QUESTION BY WEDNESDAY.

IF THE Council does not by next Wednesday pass the initiative ordinance regulating dancing in hotels, restaurants and cafes holding liquor license permits, it is under mandate to call a special election on or before October 24, according to City Attorney Stephens, who today will report to the City Council on the necessary procedure to be taken.

The failure of the proposed ordinance to contain an enacting clause does not invalidate it. The City Attorney is of the opinion that in case it is submitted to the people the Council may insert an enacting clause.

WOMAN'S STORY JAILS OFFICER.

Tricked into Traveling with Accused, She Says.

Impersonation and Abduction Charges are Made.

Wrecked Romance with Actor Underlies Allegations.

As the result of investigations of the District Attorney's office that occupied most of yesterday and last evening, Deputy Constable Burton E. Gear was arrested last night and held in the County Jail pending the issuance of a warrant, which Deputy District Attorney Stafford said will be forthcoming today, charging Gear with impersonation and abduction. Mrs. Margaret Stephens declared to Deputy District Attorney Stafford that Gear induced her to go from this city to Santa Barbara on the pretext that he was an employee of the District Attorney's office. She avers, further, that he was hired to get her out of the way by other persons. Mr. Gear, during the investigation conducted by Capt. Hunter, chief of detectives of the District Attorney's office, admitted that his friendship for Orrin Knox might have led to an indiscretion.

The arrest revealed a romance between Mr. Knox and Mrs. Stephens of long standing. The former has been connected with local theatrical stock companies and shortly after meeting Mrs. Stephens, decided to go into the theatrical business for himself. The young woman in the case is a nurse and while attending to her duties, met the actor and became a good friend.

In her testimony before the investigator, she alleged that she had joined the stock company formed by Mr. Knox and had furnished considerable of the money to help finance the venture. The company played in small towns and finally at San Luis Obispo. While there, she says, the actor informed his mother and his sister, Mrs. Helen Marlin, a musician of this city, of his alleged intention to marry Mrs. Stephens.

She says Deputy Constable Gear learned her that the District Attorney wanted him to investigate another one-time prospective sister-in-law seeking notoriety and that to get it, she would stir up scandal. Mrs. Stephens, on the other hand, declares that she would never have any trouble, had it not been for family interference.

Deputy Constable Gear will probably be arraigned today on the abduction charge before Justice Brown.

FIGURE VICTOR IS A LOSER.

Not Enough Money in Fund to Pay Judgment in Suit Against Government.

When is a victor not a victor?

According to computations yesterday by United States District Attorney Gallagher, the net judgment in favor of the Occidental Construction Company in its suit against the government, as a result of damage done 100 mules on the Mojave reservation project, is \$123.34, and there is only \$89 in the project fund to pay the bill.

Unless the plaintiff is willing to spend several times the amount involved in an appeal to a higher court, the next question, Attorney Gallagher pointed out, is: How is the winner going to get the rest of the money due him? According to those versed in such affairs, his only recourse would be an appeal to Congress.

But, as they also point out, the government is an inexorable collector, but a mighty poor paymaster—that is, if it is necessary to wait until Congress acts in the matter.

"Having nothing else to occupy my mind, and having lost practically all of my money in the theatrical business, I agreed to the plan. After arriving in that place, the investigation did not materialize."

"Two days after getting there, Mr. Gear suggested that I should trust for a living and suggested improper methods of obtaining money. I became enraged at such a proposal and decided to return at once to Los Angeles and ascertain what kind of an officer he could be. I found out right away that he was not connected with the District Attorney."

Special Investigators Conterres and Buchanan were detailed on the case and yesterday afternoon brought in all of the principals involved. Deputy Constable Gear admitted having taken Mrs. Stephens to Santa Barbara, but denies the other allegations. She admitted registering Mrs. Stephens as his wife in a Santa Barbara hotel but could not give any explanation for doing this. Mrs. Marlin insisted that her one-time prospective sister-in-law is seeking notoriety and that to get it, she would stir up scandal. Mrs. Stephens, on the other hand, declares that she would never have any trouble, had it not been for family interference.

PEN POINTS BY THE STAFF.

Ye who have deer to set, prepare them now.

What's that? The Bulgarians captured Drama? Is it a joke or the real?

There is this to be said to the edit of Pancho Villa, he isn't as often as he did.

When J. P. Morgan died he left him \$225 worth of cigars and he believed in preparedness.

There are no many clever women in the world that the women in the have occasion to employ a native.

Col. Parker of Louisiana and Virginia left hands for this campaign seem to be on the outside looking in.

Omaha claims that 1,000,000 in pass through that town every year. All probably on the way to Alaska.

The National Voters League in Congress is incapable of doing about the least that it should do.

Old Dock Cook says he will not go to try to get a job. And he gets there, let us hope he will go on going.

Manufacturers say that the day of high shoe is about over. A statement has nothing to do with the price.

What would become of the man who wore a suit of striped awning Broadway? Oh, nothing, it is that he would be arrested.

In a few days mother will be at the "Johnny, please hurry up" and will be late for school. And it's forget to wash your face."

It is quite a contract for a man to single-track mind to have a troublesome railroad strike strike him. Just look at the White House.

Reading the Hughes speech, President Wilson must be irritated out the things he might have said—he had only thought about it.

A vessel is going to the Gulf of California in quest of sea elephants. The old whaling days the men and rum they took along helped in sea elephants of all sizes and kinds. The blue ones were usually plenty.

Thirty German generals have been ousted from their commands in the army reorganization. The army is evidently looking for commanders who drink the enemy and of liquor that the enemies. Grant imputed to him.

With Congress wrestling with legislation, no doubt the house will favor the passage of a law authorizing the investigation of Peary claims to the discovery of the North Pole, with a provision that the entire body go to the Arctic Circle and make a personal investigation.

The railroads are reaping the fruits of the Clayton law that the its any corporation from entering a labor union from doing in the sure the things the corporation expects it is going to do. The law is powerless under the Clayton law, a measure pushed through by Wilson, who later he and its author with a seat on the United States District Court in Alabama.

Speaking of the rural-credit law passed by Congress, the plan of making a land bank in each of the country guarantee of loans made by a land bank in each of the country is high. The basis of that vote is a change in the demand of President Wilson to catch the farmer vote, but it is criticized mercilessly not only by bankers, but by the farmers themselves.

The Maine election will furnish first clue to the whereabouts of Progressive vote. In 1912 it showed Taft-Roosevelt vote of 25,000 in excess of that of Wilson. In 1914 the combined Republican-Progressive vote of the Democratic vote by 15,000 (the basis of that vote is a change in the demand of President Wilson to catch the farmer vote, but it is criticized mercilessly not only by bankers, but by the farmers themselves).

Nobody believes it can.

THE ASSASSIN.

It is fate have twins to the devil himself in the brimstone lake one was a cunning monster, the other a painted snake.

It is known, the holy horror, will point to his guilty mate, people rise in their vengeance, crush the snake with a stone, freed, secure in his cunning, high on a golden throne.

It is in the holiest places, the prey are the nobles of the devil sits watching and smiling.

He knows 'twill be done, and the lives of the twins are in the hands of the snake who will know that the snake will kill.

The News From South of Tehachepi's Top

LONG ILLNESS IS TERMINATED.

Harvester Manufacturer of Chicago is Dead.

Ends His Days in Sunset Home at Pasadena.

Kind-hearted Woman Helps Motherless Doves.

PARADISE, Sept. 2.—W. H. Jones, vice-president of the International Harvester Company, and for many years a prominent manufacturer of Chicago, died here late yesterday afternoon at the family home, No. 422 South Orange Grove avenue. He was 70 years old and led an active business life for more than half a century. He had been in ill-health for a year and confined to his bed since last June.

Mr. Jones leaves the widow and seven sons. His youngest son, George, is a director in the National Bank of Pasadena. He has offices in Los Angeles.

Born in Pennsylvania, Wales, April 24, 1845, Mr. Jones came to America in 1857. He spent most of his life in the implement manufacturing business, making his home at first in Columbus, Wis. He became associated with several manufacturing companies, and in 1899, when the International Harvester Company was organized, he was president and manager of this company until 1914, when the business was sold to the International Harvester Company.

Mr. Jones came to Pasadena six years ago and built a home here. He was a member of the Union League Club of Chicago and the Methodist Episcopal Church. Funeral arrangements have not been made.

HOMELIKE WAIVER.

Motherless doves and homeless cats and kittens were given profound consideration in Pasadena yesterday. The former are to be given affection, food and shelter by Mrs. Elizabeth Grinnell's Wild Birds' Acre at No. 630 East Orange Grove avenue, and the latter are to be housed in the manner of doves, according to an announcement made by the City Commission.

During the present open season for doves hundreds of baby doves are being deprived of their parents by hunters. Mrs. Grinnell has offered a reward for all orphan birds and also wounded adult doves. Mrs. Grinnell points out that many fadgelings will die in their nests as a result of the slaughter of the doves on the wing. She has asked the boys of Pasadena to take all young doves they find to home.

Baby doves will live only three days after being left without the care of their parents. The birds' nests are open to the sun, so that the fadgelings must suffer keenly when left to a lingering death by the slaying of the parents in the name of sport.

CATS REGULATED.

A petition signed by 160 residents, headed by Rev. Leslie E. Learned, requesting that cats be licensed by ordinance, was submitted to the City Commission, which promised to frame an ordinance within two weeks. The ordinance is in the hands of Chairman Hamilton. One is a copy of the ordinance of Montclair, N. J., one of the cities in the United States that license cats.

The Montclair law provides that cats must wear identification tags, which cost only 5 cents. All cats not so identified are caught and killed after forty-eight hours.

GOETHEALS' DOUBLE.

George W. Whitney, a resident of the Panama Canal zone for eleven years, and noted as a "double" of Col. George W. Goethals, has taken up his residence in Pasadena at No. 144 Penn street. He was a locomotive engineer in the government service.

Mr. Whitney has a gold medal presented to him by the government for faithfulness to duty and personal letters from Col. Goethals as to his ability as an engineer and work as a man. He has a medal presented by the passengers on board the first ship which passed through the canal. He expects to make his permanent home in Pasadena.

CITY BRIEFS.

A large tent, known as the "Peanut" tent, has been erected on Robles avenue, near Colorado street, and facing Hotel Maryland, where Rev. J. W. McCord, noted as a "double" of Col. George W. Goethals, will hold a series of nightly meetings beginning tomorrow. The evangelist came to Pasadena recently to conduct a revival meeting. Before going to Hawaii he conducted successful meetings in San Francisco and Oakland.

After an absence of twenty-three years Robert C. Hatt has returned to Pasadena to make his home. He came to the Crown City originally in 1893 and remained ten years. Then he went to Whittier, where he was in the real estate business. His new home is at No. 515 North Raymond avenue.

CHURCH BURGLARIZED.

(LOCAL CORRESPONDENCE.)

POMONA, Sept. 1.—Sunday-school officers discovered yesterday that Pilgrim Congregational Church was entered by burglars between Monday and Wednesday nights. The strong box in the Sunday-school secretary's room was stolen. It was found in a locker-room today. One side was ripped open and a bundle of valuable church papers, together with a quantity of silver cannot be accounted for. It is suspected that the robbery was committed at the same time four gallons of ice cream and cakes were stolen from the church dining-room Monday evening while a social was in progress.

INVESTIGATING LAND OFFICE.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)

EL CENTRO, Sept. 1.—The new Imperial Land Office opened for business this morning in the Masonic Temple. Phil W. Brooks, receiver, and Judge F. C. Farr, register, will be in charge of the office.

PROPOSE BONDS FOR FIRE ENGINES.

GLENDALE, Sept. 1.—Resolutions were adopted last night at the Council meeting for the calling of a \$15,000 bond election for the purpose of purchasing new fire apparatus.

Councilman Muhleman supported the measure, stating that the present equipment is insufficient and urging that Glendale needs better fire protection than it has at present.

The bond provides for pumping engines, which will furnish pressure instead of depending on gravity as at present. Chemical wagons, several hundred feet of fire and chemical hose, couplings and other items are included in the list.

Every one recognizing the need of better fire protection, said Fire Chief Lankford today. The apparatus we have would be of little use for a fire in the business district. We have plenty of water mains and a good supply of water, but the pressure is not strong enough to get a large stream of water.

A bond issue of the same sort came up last year, but was voted down at the election.

September is lovely at Coronado. Enjoy fishing, boating and bathing. (Advertisement.)

SWEARS DEPUTIES TO GUARD BRIDGES.

RIVERSIDE, Sept. 1.—Sheriff Frank P. Wilson, who is a firm believer in the principles of preparedness, has sworn in ten special deputies to guard the bridges of the Salt Lake and Santa Fe railroads in this vicinity.

The railroad companies will bear the expense of maintaining the guards, which will be retained until such time as the negotiations between the railroad managers and their employees shall have been peacefully settled.

Two officers were sent to Corona this afternoon and four to the Prado bridge. Tomorrow morning four deputies will be dispatched to guard the railroad managers and their employees shall have been peacefully settled.

If no damage is found when the vessel has been dry-docked, the company will proceed to fit out the submarine. The Diesel engine and storage batteries will arrive from St. Louis in from two to three weeks, and at that time, according to Lietz, Monroe, U.S.N., who is supervising the installation of the machinery.

DISTANT DAMAGES.

Woman Sued for Wreck While Thousands of Miles Away at Time of Accident—Mournful Fire Under Control at Camp Baldy.

(LOCAL CORRESPONDENCE.)

ONTARIO, Sept. 1.—To be sued for damages alleged to have been caused by her motor car in a crash on the Valley boulevard near Ontario at a time when she herself was more than 2000 miles distant in the state of Ohio, was the peculiar situation in which Mrs. E. A. Rummel, an Ontario society woman, found herself yesterday.

The case, which was brought by the Rummels, was in Ohio at the time of the accident. Judge J. R. Pollock gave a verdict favorable to the defendant, informing the plaintiff that he must prove either that the machine was being driven by Mrs. Rummel or her agent at the time of the crash.

Walter Smith, employee of a local garage, is said to have been at the wheel of the car, while E. A. Rummel was in another machine towing the Rummel car.

Word from Camp Baldy says that the forest fire which started shortly before noon yesterday in upper Coldwater Canyon, in the vicinity of North Baldy, is believed under control tonight since no additional firefighters have been sent for since the departure of a large number of mounted men for the camp yesterday afternoon.

Early reports today said that the fire, which is in the big pine trees, covered about fifteen miles during the night, burning toward the desert. The men from Camp Baldy are believed to have fought all last night with the flames and tonight their efforts are thought to have been rewarded.

The telephone line to the fire lookout tower on Telegraph Peak above Camp Baldy was out of commission today and communication with Watchman E. E. Cook was impossible.

SUBMARINE AFLOAT IN FINE CONDITION.

(LOCAL CORRESPONDENCE.)

LONG BEACH, Sept. 1.—The United States submarine L-6, floating in ten feet of water, is moored at the California Shipbuilding Company's dry-dock wharf, having been pulled off the mud-bank on which she stuck on being launched. All work on the craft is suspended pending the arrival of Naval Constructor Fogarty, who will inspect the craft inside and out after she is placed in drydock here.

No more government craft will be launched at the yards until the channel is dredged so that the danger of another war vessel going into the mud bottom is far removed.

Before the L-7 is allowed to slide into the Pacific, either the city or the company will place a dredge in the channel near the berth of the submarine to the L-6, and suck enough mud out of the waterway to enable the vessel to be launched without danger of a mishap.

A superficial examination today by Manager Foley, of the ship company, showed him that there was no apparent damage to the L-6. The mud of the channel was found to be soft and the timbers carried in the hull of the submarine did not damage the vessel. It is the opinion of Mr. Foley and his corps of assistants that the submarine is in as good shape as if the launch were entirely successful.

At midnight the three vessels working with the submarine managed to place the L-6 on an even keel. At 5:45 this morning the tug Lito and Bevo, of San Pedro, pulled the submarine from the mud-bank and towed her to the wharf, which is in deep water.

If no damage is found when the vessel has been dry-docked, the company will proceed to fit out the submarine. The Diesel engine and storage batteries will arrive from St. Louis in from two to three weeks, and at that time, according to Lietz, Monroe, U.S.N., who is supervising the installation of the machinery.

Crushed by Wagon.

(LOCAL CORRESPONDENCE.)

ONTARIO, Sept. 1.—Henry Rowan, 70-years-old Ontario ranchman and Civil War veteran, is in a serious condition at the San Antonio Hospital tonight as the result of injuries sustained in a runaway accident this morning when he was crushed between the street curbing on East Transit street and the wheel of a heavy wagon. He is suffering from a compound fracture of the lower leg and dangerous cuts and bruises.

He had a charge in East Hollywood and later went to Calexico. For a year he has been at the Ramona ranch.

The charge, brought by the Beardsley girl against Hambley came after she had her half-brother and a neighbor arrested, charged with a statutory crime against her. At the time the minister was mentioned as being with Hambley at the Edwards' house but he was not accused of the crime. Rev. Mr. Wright will have a hearing next Tuesday.

Coronado for an ideal vacation. (Advertisement.)

MINISTER ACCUSED BY SAN DIEGO GIRL.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)

SAN DIEGO, Sept. 1.—"I only ask my friends to defer judgment until they have heard the evidence in the case," is the statement of Rev. Amos Wright of Ramona as he left the jail today where he had been placed on a statutory charge brought by Beardsley, a 14-year-old girl.

The minister, who until a week ago was pastor of the First Congregational Church in Ramona and formerly of Los Angeles, was arrested at his home at Ramona and placed in the City Jail last night at midnight. When arraigned today before Justice Keating, he was placed under \$1500 bail and was compelled to remain in the County Jail until late this afternoon, when two of his parishioners, Mr. A. Minor and H. A. Mines of Ramona, went on his bail.

Mr. A. Mines, a local underwriter, was arrested some time ago on a similar charge brought by Beardsley girl, who said the deed was committed while Hambley and Rev. Mr. Wright visited her at the home of Mrs. Helen Edwards in this city. Hambley's case is still pending.

The arrest of the minister was a great surprise to his parishioners and others who know him. Rev. Mr. Wright says he never knew the girl other than to see her once when he called at the home of Mrs. Edwards with Mr. Hambley.

"I was retained by the undertaking firm for my back-country work," said the minister, "and so was associated with Mr. Hambley. Mr. Edwards was a dear friend of Mr. Hambley's."

The minister is also accused of advocating free love, but he denies this and says it must have originated with his accusations. He also denies that he advocated free love.

Rev. Mr. Wright resigned from the pastorate of the Ramona church a few days ago and says he intended in a few days to go to Los Angeles to their home in the desert, where he has lived many years, while he determined as to which of several locations he would choose.

"I resigned before I knew anything of this, merely for financial reasons, although I'll admit it looks bad now," said he. "Since the flood, many of the people of Ramona have moved away and the congregation is unable longer to pay my salary."

Rev. Mr. Wright was for many years a missionary in China and he and his wife speak Chinese fluently.

New Wool and Silk Dresses for Girls Getting Ready for School

We are amply prepared to take care of the needs of girls of six to sixteen years in the way of suitable school apparel, and we know the mothers who pay the bills will appreciate both the daintiness of style, and the fairness of the prices here:

Challis Dresses
Plain materials, stripes or polka dots to choose from.

Plaid Silks
Velvet and wool combinations; girls can wear nothing more becoming. Bright Plaids for the small girl, in variety.

Convent Dresses—in black and navy.

Serge Skirts—with waists; navy, at \$2.50 to \$4.50.

In white or checks, for girls of 6 to 14—\$1.00 to \$3.00.

(Chief Wear Second Floor)

Ribbon Remnants

Lengths of 1/4 to 2 yards here, and of many, many kinds; we sell such quantities of ribbon that something from practically all parts of the stock will be found represented; fashionable ribbons in wide and narrow widths, all at Half.

(Ribbons; Main Floor)

Final Clearance of Summer Parasols

We have divided all remaining summer parasols into five groups—which include every one in stock; we carry none from season to season, hence such sweeping reductions as these which follow. Parasols in this climate are carried the year around—why not save four or five times their usual price now!

Wide Range of Colorings
and shapes—novelty frames, handles and silks in great numbers:

Lot 1—Were \$2.00 to \$5.00	Now \$1.00 to \$2.50
Lot 2—Were \$4.50 to \$9.50	Now \$2.25 to \$4.75
Lot 3—Were \$6.50 to \$15.00	Now \$3.25 to \$7.50
Lot 4—Were \$7.50 to \$13.50	Now \$3.75 to \$6.75
Lot 5—Were \$13.50 to \$22.50	Now \$6.75 to \$11.25

(Parasols; Main Floor)

Women's Handbags \$3.50

Genuine leather bags and purses—staple business bags and the latest novelty shapes in pin seal, Morocco and patent leathers; values to \$7.50, \$3.80.

(Leather Goods; Main Floor)

Would You Know What Styles in Coats Are to Be?

Each express augments the display of all that is smart in the fashion-world of separate coats for autumn and early winter. Two buyers daily send us the very newest designs, from leading makers.

Wool Velours and Bolivias
seem favorite materials; in navy, plum, blackberry and brown.

Mixtures Are Good
in grays and browns; block plaids are very smart, too.

Swagger Cut
and rippling effects are much in vogue, with many of the more conservative styles as well.

In mixtures prices begin at \$17.50; velours, \$32.50 and higher; bolivias, \$47.50 and higher.

(Coats; Second Floor)

COMMERCIAL

are declining in value daily. Grapes are especially cheap and Muscats were yesterday reduced to 55 and 65 cents a lug and Tokays to 90 cents and \$1. A new kind is now in the market, the Cornichon, which is selling for \$1 a lug. Apples are still bringing firm prices although a general reduction all down the line

coming into Los Angeles in large quantities, and a great many are being placed in storage. According to reports from the islands, the banana crop in a number of the islands was badly damaged by the late tropical storm which swept over that region. Quotations here still continue at 4 to 4½ cents a pound, but in the opinion of a few of the large jobbers these values will have to be raised shortly. The demand for Bartlett pears is growing stronger every day, in spite of fairly heavy shipments from the northern section of the State. Peaches are strong and

are having no difficulty in securing rather fancy figures. There is not much doing in the melon line and values remain practically unaltered. The onion market is going higher. Browns were advanced yesterday to \$1.90 and \$2 a sack and white globes are in strong call at \$2 to \$2.15 a hundred. Silverskins continue as

ing a ready sale at 70 to 75 cents a lug. In the purely vegetable list there is a tendency for values to strengthen. Tomatoes of the better sort are bringing 50 cents a lug and green beans are liable to advance any time. New celery is making quite a hit with the consumer, as this year's crop was of an excep-

Butter prices dropped to 50 cents a pound at Friday morning's session of the Produce Exchange. Eggs were inactive and the price remained the same as the day before, notwithstanding the fact that receipts were very small. In San Francisco all the main staples advanced, and eggs in particular soared to 37½ cents a dozen for extras. The receipts were

pounds of butter, 23,100 pounds of cheese, 2760 sacks of potatoes, 1825 sacks of onions, 18 sacks of sweet potatoes, 3599 boxes of apples and 210 boxes of peaches.

**EXTENDS TIME
FOR FREIGHT.****Embargo Becomes Effective at
Midnight Tonight.****Railroads Warn Employees
Who Obey Strike Order.****Forfeit Positions by Refusing
to Answer Call.**

An extension of the time limit placed on perishable freight movements, which will make the embargo effective at midnight tonight, instead of 7 o'clock this morning, according to the railroad men, is the only road which had not done so before, and issuing warning bulletins by two railroads, was the principal local developments in the strike situation, yesterday.

Shortly before 5 o'clock yesterday afternoon the Southern Pacific announced that perishable supplies en route will be kept moving until midnight tonight, in the effort to deliver consignments which might be but a few miles from their destination at 7 o'clock a.m., the hour first set as the limit.

At approximately the same time telegraphic instructions were received from San Francisco to post the following bulletin on all call-boards and in other conspicuous places:

WARNING TO EMPLOYEES.

"To all employees—In the event strike is called by the brotherhoods of engineers, firemen, conductors and brakemen, it is important that the following be understood by all concerned:

"All persons employed by the company who fail to respond to call for duty will be considered as having left the service, forfeiting all seniority and other rights and privileges.

"Men remaining in the employ of the company will be given the preference of positions, other things being equal.

"No men taken into the service will be retained so long as their services are satisfactory.

"Employees other than those on strike, who are temporarily thrown out of employment, through no fault of their own, will be considered as absent on leave without pay and will not forfeit any pension or seniority privileges, provided they return to service when required."

ON SALT LAKE SYSTEM.

A few hours previous, the Salt Lake, through General Manager James H. McConell, issued a bulletin to all employees, which stated:

"Engine, train and yard men will be called for their regular duty as usual. Anyone failing to respond to the call will thereby end his service with this company.

"Train and yard men who report for duty when called will keep their rank on the roster.

"Men who do not go out, and new men filling vacancies, may keep their jobs as long as they give satisfactory service; they will not be displaced by strikers.

"Think it over before you go out."

Immediately following the posting of the bulletin, Mr. Nutt announced that advertisements for machine and trainmen are to be inserted at once in papers of cities on the Salt Lake system.

Local applicants will be examined at Room No. 455 Pacific Electric Building, Sixth and Main streets.

The Southern Pacific yesterday had approximately 100 men sworn in as special deputy sheriffs and will have about 100 more sworn today. These men have been sworn in for the purpose of maintaining law and order.

The following telegram was received here yesterday by J. J. Byrne of the Santa Fe:

CHICAGO (Ill.) Sept. 1, 1916. B. J. Byrne, Los Angeles, Cal.: "The intention of the Santa Fe to start all passenger trains from all terminals at Chicago, Kansas City, Galveston, Denver, El Paso, Los Angeles and San Francisco, on schedule this morning, is a serious matter. We believe we will have sufficient train crews more all passenger trains and at least one freight train over each division. We have advised that the four brotherhoods will hold union meetings tonight at Newton, Dodge City, La Junta, and will request brotherhood chiefs to withdraw strike order. The chairman of the O. R. E. on our line in Colorado refused to

run.

WHAT STRIKE MEANS TO THE WOMEN, CHILDREN.

WHAT the railroad strike—if it should come—really means to the rank and file of the prospective strikers was made plain to a Times man last evening by the wife of an engineer on the Salt Lake who has a little home here. She spoke not for the 400,000 strikers themselves, but for 1,000,000 women and children in the United States who are dependent upon them.

She is a faded little woman, nearer 50 than 40. Her hands bear the mark of the years of work but her smile is still brave and patient. She said that she had been through two strikes already.

"You see it means so much to us," she said, "in 1914 Will had to go out in the big strike. That was the year we had the baby, because times were hard and we hadn't saved very much. After that Will came West and had to start over again at the bottom, because he had lost his rating.

"When the Los Angeles Investment Company went broke we lost most of what we had saved, but now we have nearly paid off the mortgage on the house.

"This strike worries me so much, and I don't think Will sleeps very well. You see he will either have to go out or the strikers will call him a scab, and Will and I both know that if he goes out and the men don't win, it will be about the end for us."

Issue strike notice. Individual members of the conductors', engineers' and brakemen's organizations on the Santa Fe in Texas are making effort to obtain court injunction to prevent strike taking place. Thirty-six engineers and firemen, all experienced men, passed satisfactory examination before our board at Los Angeles yesterday. General Manager Wells has applications from upwards of 400 experienced and 655 inexperienced men, part of whom will be examined today. (Signed) W. J. BLACK.

Going Ahead.
IMPORTS ARE LARGER.

August Figures Show Appreciable Gain Over Same Month Last Year, Both in Value of Goods and in Collections—Revenue

The August report of the Collector of Customs at the local port indicates \$208,681 increase in imports over those of August, last year; increase in collections for the same period, \$275,225.

The total collections for the month just closed were \$27,680,44, and imports, \$462,018. Of the collections Los Angeles furnished \$35,123,37; San Diego, \$238,513; Calexico, \$117,041; Tia Juana, \$22,577; Campo, \$119,431; Andrade, \$2,425. Of the imports Los Angeles had \$190,116; San Diego, \$24,863; Calexico, \$221,155; Tia Juana, \$57,431; Campo, \$121,155.

For the same month last year the collections amounted to \$1,882,03; imports, \$243,885.

The August collections in the office of the Collector of Internal Revenue amounted to \$1,882,03, as compared with \$1,829,400 for August, 1915, and \$85,576.50 for August, 1914. Much of the increase in the past month's collections arose from the payments made by delinquent corporations for additional taxes, under the ten-day rule.

Later.
**AFTER HOUSE PARTY
TEARS AND REGRET.**

**COURT HEARS STORY BEHIND
CLOSED DOORS.**

Four Young Men Accused are Held to Answer in Superior Court. Girl Hostess in Mother's Absence. Ours to Drinking Liqueur, but Forgets More Serious Charge.

A young girl crying softly, four young men with serious faces, a sad-faced mother and a score of boys and young girls, forming the dramatic scene of a hearing in Juvenile Court yesterday. The girl and the four youths were the principals, and the other friends and guests at a birthday house party at the home of Mrs. Elizabeth Hedlund last Saturday night.

The girl, Miss Mildred Hedlund, 17 years old, who it was said had been visiting at the home of her mother at the Receiving Hospital to have been mistreated, became hysterical during the hearing behind closed doors before Judge Deane.

It appears that she remembered having drunk beer and other liquor, but could not recall the main allegations of the case.

The young men, Roy Barnhart, D. D. Karp, Harold Suseforth and William McConnell, admit having been at the party, but through their counsel claimed they are innocent of the charge. The party was said to have been held at the home of Mrs. Hedlund.

At the conclusion of the hearing Judge Deane held the young men to the Superior Court, reducing their bail from \$2500 to \$500 each. Because of the age of the girl and the fact that she had been mistreated, one phase of the case may develop into an inquiry as to who supplied the liquor and who offered it to the girl. This latter is a misdemeanor. And so, while the house party was a success, the aftermath has been a legal battle.

The Public Service.

At the City Hall.
**HOLLYWOOD READY
TO VOTE AGAIN.**

**NEW WATER BOND ELECTION
PETITION FILED.**

Names Expected to be Verified by Thursday and it will then go to the Council—People are Hearty in Co-operating with Public Service Commissioners.

Bearing 4800 names, or twice the required number, a petition was filed with the City Clerk yesterday, by the Public Service Commission, asking the Council to call another election in the Hollywood district to vote the \$1,020,000 water bonds. This second election is necessary because the first was declared void by the courts, owing to an error in description.

Members of the Public Service Commission say the people of Hollywood gave them the heartiest cooperation in obtaining names and seem to feel they have a moral responsibility to vote these bonds.

The City Clerk expects to have the names on the petition verified by Thursday and then it will go before the Council for the ordinance of intention and the hearing of protests. The election is expected to be held late in September or early in October.

POWER QUESTION.
SAYS IT'S RECIPROCITY.

President Betkouski informed the City Council yesterday that it is not the intention of the city to enter into a contract to purchase power from Pasadena. He made his statement during discussion of a letter from the power companies which said they had been informed the city was contemplating purchasing electric current in wholesale quantities and asking the opportunity be afforded for competitive bidding.

President Betkouski said the power department figured on lightening the city of the city if it got the poles and lamps up before the first of the year but he took the position there was no need of making a contract by January 1, if the department estimated it would be ready to light the streets. He did not see why the city should attempt to light the streets until it was ready to furnish the power itself.

He added that the power department wanted an agreement with Pasadena that in case an accident should occur this city could get power from Pasadena. On the person of the hand, Pasadena, he said, and under that agreement both of these things would be provided for.

The matter referred to the Public Service Committee of the Council.

ANOTHER ONE.
CHARTER AMENDMENTS.

Proposed charter amendments are piling up. The Council yesterday after passing a resolution that all city employees be paid monthly, found the charter provision that all city employees shall be paid monthly, so it is considering amending the charter to provide that employees be paid monthly, semi-monthly or weekly as may be determined by ordinance.

Councilman Lindsey introduced the resolution for semi-monthly payments in order to provide against employees falling into the hands of the enemy's hands. It was his intention to have the City Auditor that beginning yesterday all employees should be paid twice a month.

CANNOT COMPLY.
BOARD TO COUNCIL.

The Board of Public Works yesterday "respectfully acknowledged" receipt of instructions from the City Council to allow laborers and teamsters employed by the city to work on Labor Day and Admission Day, but expressed regret at being unable to comply with the request. It gave as its reason that "your honorable body has not provided us with sufficient funds to pay these employees at the rate of time and a quarter, which we would be compelled to do if said employees worked on these holidays."

The board added further that it was "of the opinion that no laboring man should be compelled to work on Labor Day as it has been set apart by request of the labor organizations as a day upon which to honor labor."

The subject will come before the Council this morning for any further action it may deem necessary to take.

JUST LIKE GERMANY.
"STRICT ACCOUNTABILITY."

Carrying out its previously announced plan to hold city inspectors strictly accountable for work inspected and contractors responsible for work done, the Board of Public Works yesterday formally adopted two rules. This action is the first result of the recent investigation into street inspection irregularities, conducted by the Public Works Committee of the City Council.

Hereafter street inspectors who pass faulty work will be summarily dismissed. In the case of contractors, if the work shows faulty construction due to their neglect or intent, even after formal acceptance by the city, they will have the option of making the work good or the City Council will declare them irresponsible bidders and bar them from future city work.

To Cut Down Speed.
Because of complaint of excessive speed by Pacific Electric cars in the neighborhood of Rose Hill, the Public Works Committee of the City Council yesterday recommended that the board of Public Utilities be instructed to require the company to have the speed of the cars reduced at crossings known as Turquoise and Turquoise. Chairman Topham said the company already had agreed to this course.

Mountain Visit.
The City Council will meet this morning at 8 o'clock instead of 9 o'clock in order that business may be hastened to allow of several members visiting the Playground department camp in the San Bernardino Mountains. The Council will then meet the Supervisors of San Bernardino county to inspect the camp.

SKETCH FALL STYLES.

Members of Palette Club Pose Models in the Latest Garbs.

Models were posed in the new winter suits, coats and evening gowns in Hale's cloak and suit department, Thursday, by members of the Palette Club to get ideas for the club's forthcoming poster exhibit in the studios of the Los Angeles School of Art and Design. In fact, there was no lack of models, for a number of women who came to shop in the store volunteered to stay to pose. The club's exhibit will open the 15th inst.

ROB POSTOFFICE.
Information was received by Post-office Inspector Webster yesterday that the postoffice at Lomita, between Redondo Beach and the harbor, was entered by the back door, Thursday night, and \$15 in public funds taken. Postmaster Smith has no clue to the thief.

**THE NEW COLLARS
OF FALL SURPASS**

Dainty adornments in Broadcloth, Bastiste and Georgette. Milady will be pleased.

Fall has brought nothing more dainty, exquisite or lovely than the new collars and sets of white broadcloth edged in black or the circular and square bastiste collars with scalloped edges or even the soft filmy Georgette crepe creations. Milady should see them.
